New Danny Kaye Fun Film, "On The Double" Is Due

Danny Kaye returns to his original style of acting for fun in his new film, "On The Double," opening Thursday, August 10 at the Legion Theatre. Co-starred with Kaye in the Shavelson-Rose Technicolor comedy with music are Dana Wynter, Wilfrid Hyde White, Margaret Rutherford and Diana Dors. Allan Cuthbertson, Jesse White, Greg Walcott and Rex Evans have other important roles.

In the Paramount release, set in London and Berlin during World War II, Kaye portrays two roles - a GI with weak eyes, a weak stomach and weak nerves, and a hard-bitten British General whom

LET'S TALK MISSISSIPPI

A Mississippian, John Ross, in 1801 made the first written suggestion that valuable oil could be pressed from Cotton seed.

But it was not until 1834, at Natchez, that the first cotton oil mill was erected. Just north of Natchez, at Washington, Eleazer Carver had begun in 1807 the manufacture of cotton gins - the first in the south.

Mississippi reached its first industrial peak, based on cotton production, in 1840.

VOTE "YES"

Saturday, August 12, when an election will be held for a BAWI Bond Issue, is a golden opportunity for the citizens of our community. A City grows and makes progress only so far as its citizens want it to.

We are very fortunate to have such a successful business man as Mr. Brignac interested enough in our community to consider setting up a business here.

The success of this election for our first BAWI Bond Issue is so important to our future progress, that we urge every citizen to vote "YES" to the BAWI Bond Issue.

The Nazis want to assassinate the GI who resembles the General, thereby becoming the target in "Operation Dead Pigeon," as British Intelligence realistically refers to the assignment. During the course of Kaye's fight for survival, he impersonates not only the General, but a number of other Hitler and a few signs, dances, the hilarious way him fame and which he depicts serious character and the Colonial appearance.

State Employment

Mississippi employment moved upward for the fourth straight month in June. Although the gain was small and largely seasonal in nature, there were indications of continued improvement in some of the major industries. Manufacturing employment reported a healthy gain during the month. Average weekly hours for Mississippi factory production workers moved upward for the fourth straight month. Nonmanufacturing employment changes in June were mainly seasonal, dropped 284,300 in May to current figure of 283,400. June

losses were due entirely to normal summer cutbacks in school pay rolls.

Thank You

To the good people of Bay St. Louis, who opened their hearts and helped send us to Ponce de Leon Beach. We the orphans of Natchez shall remember that trip for a long time. Again let us say thanks and you will be remembered in our prayers for the kindness that you have shown us.

Signed

"MISS HOSPITALITY" for 1961-62 is Miss Joann Lea Watts, Poplarville. She will represent Mississippi at travel shows throughout the United States for the next twelve months as part of her general duties as the state's "Goodwill Ambassador." The annual competition to select a "Miss Hospitality" is a project of the Travel Department of the Mississippi Agriculture and Industrial Board. Miss Watts was selected by three out-of-state judges at a four-day judging event on the Mississippi Gulf Coast. Her first alternate is Miss Lynda Ann Hobby, of Natchez. Miss Dianne Carpenter, of Biloxi, was chosen second alternate. Miss Watts is the daughter of Mrs. Maxine Watts, Poplarville, and a junior at Mississippi Southern College. She succeeds Miss June Wood, of Hattiesburg, also a student at Mississippi Southern.

the martian question

Something to think about . . . If there are intelligent creatures on some other planet, your son and mine may one day meet them!

What sort of people would you hope these "Martians" to be?

Believers in God . . . or atheists?

Men and women with spiritual ideals . . . or materialists of the Kremlin vintage?

Warm-hearted, friendly, with a Christian sense of values . . . or ruthless, indifferent, dedicated only to self?

WOULDN'T IT BE HEARTENING to find on that planet a world of churches . . . of faith . . . of folks at worship and at work for the Truth revealed to them by God?

Something to think about . . . Next Sunday! In this world! Which isn't yet all we want Mars to be!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

SERIES OF EVENTS CONCERNING PROPOSED BOND ISSUE

"VOTE - August 12" is the official slogan of the bond issue campaign now in progress in the City of Bay St. Louis. According to Norton Haas, Jr., Chairman of the General Committee.

"Vote Bond Issue" committees appointed include: Publicity, Chairman - Warren Carver; Telephone and Registration, Mrs. John Wilkerson; Transportation, Mrs. J. Marengo; Mail, Mrs. Gordon; Sub-committees of Publicity include: News, Mrs. Mahon; Printed Matter, Arthur Chapman; Retail Merchants, Ocala, Delphi, Sound, Earl Ramond; Motorcade, John Rutherford.

Plans are being made for a motorcade or parade to be held the Friday afternoon before the bond election on Saturday, August 12. Mr. Haas stated, "Anyone wishing to work on any of the committees listed can do so by calling Warren Carver or Norton Haas Jr."

Mayor Scafidi and Norton Haas, Jr. will address a meeting called by Paul Lewis, a member of the General Committee for the bond issue, at the One Hundred Mens Society Hall on Union Street Friday, August 4th to explain the bond issue. Everyone is invited to attend.

Mr. Hardin Shattuck addressed the Bay-Waveland Garden Club at the Garden Center on Leonard Avenue at 2:00 p.m. Tuesday, July 25. Subject of Mr. Shattuck's address was the proposed bond issue, according to Mrs. R. F. Gray, President.

\$175,000 FOR RESEARCH SHRIMP PROGRAM

WASHINGTON, D.C. — Shrimp resources of the Gulf of Mexico will come in for a wisely managed research program this year, thanks to a Stennis amendment that provided \$175,000 for the project. Senator John Stennis said today a Senate-House Conference on Interior Department appropriations for the 1962 Fiscal Year adopted a proposal he offered to boost the shrimp industry in Gulf waters.

The amendment was offered by Stennis last May as an additional item to the President's recommended budget. Stennis offered the amendment after a delegation from the Gulf States Marine Fisheries Commission, including several prominent Mississippians, appealed to him for help.

Stennis said the money would be used to hire additional personnel and to charter special vessels to conduct the shrimp research program with an eye toward more management of the industry. The research program would not be limited to Mississippi waters, but would affect all shrimp producing areas from the Florida Keys to Texas.

HOME AGENTS' NOTES

MARCIA P. HUGHES
Home Demonstration Agent

As we enjoy fresh red-ripe tomatoes of summer, it hard to believe that tomatoes were once grown strictly as an ornament in the garden.

Today they rate second only to potatoes in total vegetable sales. Each person in the United States eats about 57 pounds of fresh tomatoes and tomato products a year.

The Italians broke the superstition that tomatoes are not good to eat back in the 1500's. Gradually other European countries followed suit and by 1900 everyone was eating and enjoying tomatoes — except Americans. It took the popular Creole food of New Orleans to break down their resistance to tomatoes during the 1890's.

Enjoy your fresh tomatoes now. Can or freeze plenty of them for later. Remember they are an excellent source of vitamins C and A. One medium sized tomato provides you with half the daily requirement of Vitamin C.

TURKEY IN AUGUST
We usually think of turkey for Thanksgiving and Christmas. But this year will be a time to plan for turkey in hot weather meals. We will have about a fourth more turkey going to market this August than we did last year.

Other foods you should find in good supply in August are peaches, summer vegetables, shrimp and plum. Check your local supplies of fresh vegetables for mealtime, canning and freezing.

PREPARE BULB BED
Yes, it's time to be getting your beds ready for bulbs to bloom next Spring. To prepare the bed, to which you will add bulbs in about a month or six weeks, turn soil several times, breaking large clods. For each 100 square feet of space, work in 5 pounds of complete fertilizer.

Don't put off buying bulbs, waiting until they have dried out in heated stores all fall. **FRANKFURTER VARIATION** Cut five or ten splits in a frank. It will then curl into a circle when

boiled. **SOAP FAULTS** Soap faults can be easily made. Soap faults in small amounts of about 1000.

Attending State 4-H Conservation Camp at Choctaw Lake 4-H Club Center July 26-28 were: Marie Peterson of the Bay High 4-H Club and Lowell Moran, member of the North Central 4-H Club. Each county may send one boy and one girl actively participating in a conservation program such as Forestry, Wildlife Management, Soil and Water Conservation, Pasture, Garden, Home Grounds Beautification and Leadership. Local sponsorship for this award to two outstanding 4-Hers is the Hancock Bank.

Junior Flag Officers Elected At B-WYC

At the B-WYC member meeting Wednesday July 26th, following Junior Officers were elected to serve during 1961 or until elections are held in 1962. Junior Commodore, Alfred C. Watters; Junior Vice-Commodore, Chuck Breath; Secretary, Dianne Taylor.

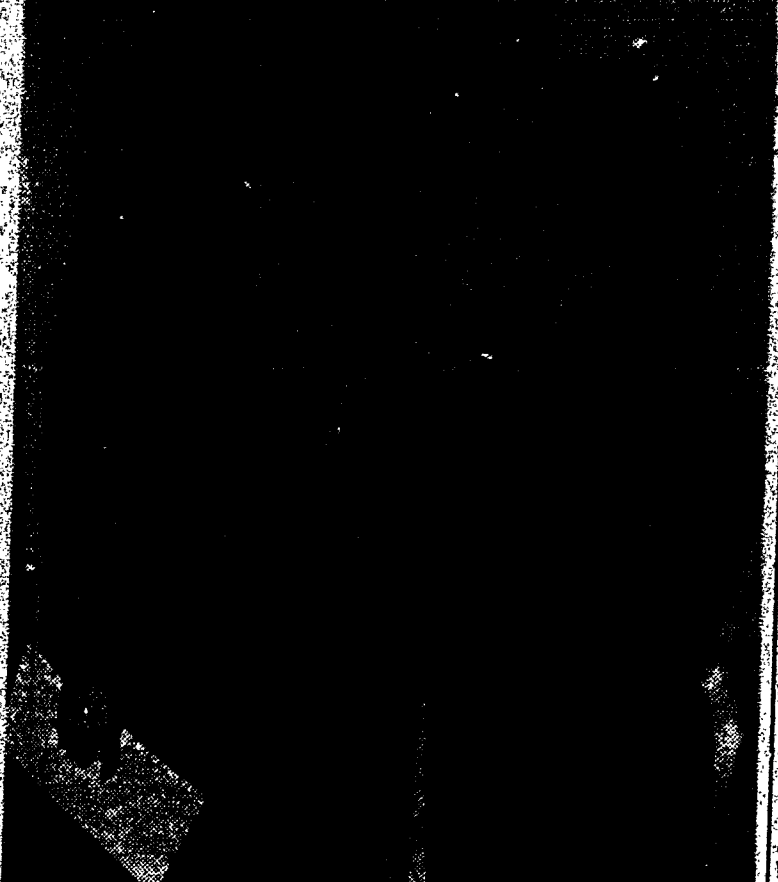

When Little Ellen Andrews, of Mobile, visited Ballingrath Gardens, she was fascinated with the giant Mibicus which towered over her. These plants are unusually large in size and attract the attention of most visitors to the gardens along with the roses, allamandas, exers, by drangeas, dahlias, lilies and the many foliage plants that provide the costume for Ballingrath Garden's summer dress.

More Questions And Answers About The Proposed Bond Issue

- Q: Where will the enameling plant be located?**
A: On Central Ave. (formerly known as Railroad Ave.) and South of Ballingrath Court. (Ed. Note - See sketch of location elsewhere in this paper).
- Q: I am a retired person - I like Bay St. Louis the way it is - why should I vote for this industry?**
A: You are like most all of us in that you like Bay St. Louis. This industry will help the community develop, help with the burden of taxes for schools, roads, public facilities, etc., and make our community a better place in which to live.
- Q: I live in Waveland, so naturally, can't vote for this bond issue, but I realize it definitely is in the best interest of our City, too - what can I do to help?**
A: We know the entire County will benefit by this plant coming to Bay St. Louis. All the citizens of the County are urged to talk it up! You and our other good neighbors are urged to contact your relatives and friends that do live and vote in Bay St. Louis and see to it that they go to the polls and vote YES on August 12.
- Q: You say 90 to 100 people will be employed - I don't plan to work there - what's in it for me?**
A: A survey made by the U.S. Chamber of Commerce recently shows that for each 100 new jobs created by an industry, the community can expect the following:
1. A population increase of about 296 people.
 2. An increase of about 112 more households.
 3. About 51 more children enrolled in our schools.
 4. An increase in personal income of about \$590,000 for our people.
 5. A yearly increase in bank deposits of about \$270,000.
 6. About 107 more passenger cars placed on the tax rolls.
 7. An increase of about 174 more workers employed in the community.
 8. The opening of about four more retail establishments within the community.
 9. A yearly increase in retail sales about \$360,000.
 10. About 186 more people attending and supporting the church of their choice.
- We believe there's something in these statistics for everyone!**
- Q: Why should the community construct a building for a concern that certainly is capable and can afford the construction of its own plant?**
A: It's good business - for both the community and Industrial Electric. It is an established fact that at least one other South Mississippi city has offered this firm a FREE building site plus other concessions to move there. Unless we offered something, we couldn't expect to get the plant. By contract between Bay St. Louis and Industrial Electric, the entire cost of the land and building will be paid in yearly rental fees paid by Industrial Electric. This rental cost becomes an operating expense and is properly chargeable as such - thus providing some relief in the income taxes paid by the manufacturer - a good business move on their part. Also - a manufacturer - like an individual - wants to be liked and likes to be wanted. We can prove to this manufacturer that we do like him and want his firm - VOTE and vote YES on Saturday, August 12.
- Q: What happens if Industrial Electric goes out of business?**
A: The City would have to secure another tenant. However, the A. and I. Board requires a firm to have a net worth of at least 1 1/2 times the amount of the bond issue. In this case Industrial Electric has a net worth many times the \$300,000 bond issue and will place precision machinery and equipment valued at approximately \$500,000 in this plant. Their entire operations are pledged in the contract with the city to meet the rental fees established necessary to pay off the entire cost of land and building over a 25 year period.
- Q: Do I understand the City is going to build a plant for Brignac?**
A: Definitely not! The City of Bay St. Louis will own the land and the building. Industrial Electric, of which Mr. Brignac is President, will, by contract with the City, rent the building. The City will retain title to the land and building.
- Q: Who can vote and what vote determines if the proposal is approved?**
A: Any qualified voter of Bay St. Louis is eligible to vote. A majority of those qualified must go to the polls and vote. Two thirds of those voting must vote YES in order for the proposal to be approved.

Capt. John W. Clark, president of Delta Line, is decorated with the Order of the Southern Cross, Brazil's highest civilian medal, by the Hon. Alcindo Guanabara, Consul of Brazil in New Orleans.

New Orleans, La. — Brazil's highest civilian decoration was awarded here this week to Capt. John W. Clark, president of Delta Line (Mississippi Shipping Co., Inc.).

The "Cruzado do Sul" or Order of the Southern Cross was presented to the New Orleans shipping executive Wednesday night by the Hon. Alcindo Guanabara, consul of Brazil in New Orleans. Capt. Clark was cited for his excellent service in the interests of improving commerce and trade relations between Brazil and the United States.

Delta Line's 13-vessel fleet transports large quantities of coffee and other Brazilian exports between the South American country and the U. S. Gulf Ports. Capt. Clark accepted the Southern Cross, a blue, white, and gold medal, on behalf of Delta Line and its staff. He called Brazil "one of our greatest friends in this hemisphere."

He said that Delta has provided continuous regular service to Brazil since 1919. "Indicative of our progressive transportation program are the three new super cargoliners, S.S. Del Rio, S.S. Del Sol and S.S. Del Oro, which have recently entered the South American—Gulf area service. They operate on fast, regular schedules in combination with Delta's popular passenger liners, the S.S. Del Norte, S.S. Del Sud and S.S. Del Mar," Capt. Clark said.

The high Brazilian decoration was presented during the course of a party given by Delta Line for New Orleanians engaged in the coffee trade.

Visitors to Waveland this week on vacation were the Lester Sanchez family, the Dan Champagne family and the Vincent Mancuso family all from Arabi, La. Don't know what the women folks did but the men spent most of their time floundering over the Knock-Knock Bar. Dan said it was much more pleasant than walking in the water after them.

Trapani's Knock-Knock Ladies Bowling team took over 1st place in the "Mudders League" this week by sweeping 4 points in their last outing. This put them 1/2 game in the lead. Frank is very happy these days - his softball team is now on top of the softball league and his girls bowling team is also on top.

FROGGING IN LOUISIANA
Here is the real facts about

frogging in Louisiana. Frogs can only be caught with hand grabbers - no fishing - no limit. Close season during April and May of each year. The skin must not be broken. There are no regulations in Mississippi. Frogging is a good sport and frog legs are a table delicacy, barring none.

Soft crabbing is about out. Caught 9 crabs Tuesday night the hard way. Floundering will continue but best results will be had on the dark of the moon.

"Gilly" Gilmore will be away for the next two weeks. Will get back to fishing on his return.

Junior Bourgeois and Louis caught some nice fish off the Highway Bridge. They were throwing a cast net.

Judge Rene Viosca and Ray Kidd went out after specks Wednesday, haven't heard of what they caught.

Father Mercier and his father were out this week at Half Moon Saturday. They caught 90 specks.

Had a nice lunch with Ben Hayward, Jim Henry, John Gleason and Joe Glover last Friday in New Orleans. They plan a fishing trip to the Bay soon.

Boy Scouts Troop 217 had an overnight camping trip last weekend. Accompanying the boys were

George Favre, Larry Laroux, Laverne Pahlman, Don Elliot, Jake Morreale, Lloyd Bourgeois, Teddy Stechman, Jr., Lloyd Cuevas and Scoutmaster, Teddy Stechman, Sr. Visiting the boys were Father Haddican, Mrs. Jake Morreale, John Rutherford, and Mrs. Teddy Stechman, who helped with the cooking. The boys had a great time.

Natchez Featured in National Advertising

The Ethyl Corporation is currently featuring Natchez in its national advertising. Advertising appearing in the Saturday Evening Post and Life magazine shows a picture of Melrose, one of the city's ante-bellum homes. The copy calls attention to the tourist attractions of the Natchez area and observes that "A trip to Natchez can transport your children and you back to the gracious living of ante-bellums days."

Business Activity

State business activity has achieved a new all-time high level for May and June according to recent reports. More-over, July business volume will probably be as good. Mississippi bank debits totaled \$850,428,863 during May, and this was nine per cent higher than the May, 1960 total. In addition, practically all phases of the business economy have improved. All told, business conditions seem to be good in Mississippi.

SCHOOL HEALTH WORKSHOP IS SCHEDULED

A School Health Workshop, designed for all school and public health personnel in Mississippi south of Highway 80, will be held at Mississippi Southern College, Hattiesburg on August 9.

The one-day program is jointly sponsored by the State Department of Education, the State Board of Health and Mississippi Southern College. It will begin at 8:30 a.m. in the Student Union Building on the college campus and will adjourn at 4:00 p.m.

The workshop is open, without charge, to school administrators, teachers, and public health workers.

Among the array of consultants for the workshop will be Dr. Carl S. Shultz, Chief of School Health Services of the U. S. Public Health Service, Washington, D. C. He will be heard in the keynote address at 9:15 a.m., which special interest work groups will be set up for the day.

Topics to be explored in the special interest groups include health problems of school age children and services for handling them; healthful school environment; physical education and youth fitness; accident prevention; health education and health instruction resources; use of cumulative record forms; vision and hearing screening program; teach-

er observation of pupil; the role of lay groups in the school health program; administering the school health program.

The purpose of the workshop, according to Dr. N. C. Kaighn, Medical Director of School Health Service and Director of Health Education for the State Board of Health, is to furnish orientation to public education and public health personnel in the total school program and to review new trends and developments in the program and developments in the program.

In recent years orientation conferences have been held on the county level.

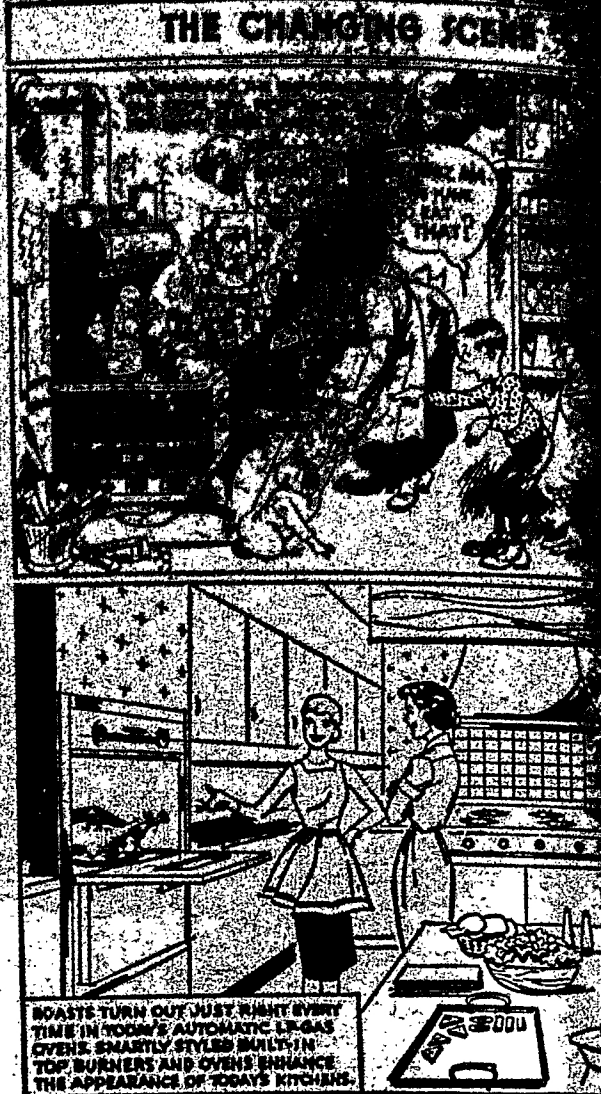

"By arranging a large area workshop we are able to bring together a large group of outstanding specialists to serve as discussion leaders and consultants," said A. D. Owings, Educational Director of School Health Service.

Since the competence and scope of the school health program dictates in a large measure pupil adjustment and progress in school, as well as the acquisition of health habits and information that will carry over into adulthood, Mississippi School Health Service authorities are urging that every county in south Mississippi be well represented at the workshop.

Mississippi Calf Crop

The 1961 calf crop in Mississippi is expected to total 283,000 head. This is slightly less than the 284,000 head born in 1960, but is about 2 per cent more than the 278,000 of 1959. The number of cows and heifers 2 years old and over on January 1, 1961, was 1,214,000 head compared to 1,233,000 head on hand a year earlier, and the 10-year average of 1,220,000 head. The expected number of calves born or to be born in 1961 expressed as a percentage of cows and heifers 2 years old and over on January 1, 1961, is 78 per cent. This is 1 per cent more than last year, and 2 per cent above average.

MISSISSIPPI AUTOMOBILE DEALERS LAUNCH USED CAR WARRANTY PROGRAM

JACKSON — (Special) After many months of research and planning, the Mississippi Automobile Dealers Association, the State Organization of factory franchised car and truck dealers, has launched its long-awaited Guaranteed Warranty used car program. It was announced today (July 30) by James E. Fowler, Jackson, MADA president.

More than 150 Mississippi new car dealers are enrolled in the new program which provides a 15 per cent parts and repair discount on a warranted used car purchased from these dealers for a period of one year from date of purchase, regardless of mileage.

The purchaser may exercise his warranty at the service department of the dealer from whom he purchased the GW-warranted car or any of the more than 130 GW dealers throughout Mississippi. President Fowler revealed in a bulletin to member dealers that their customers who purchase GW-warranted cars and trucks may exercise their warranty also in Iowa, South Dakota, Wisconsin, Illinois, Nebraska, Toronto (Canada), Washington State, Colorado, Pennsylvania, Michigan, North Dakota, and Utah. He said that before January 1st, another twelve states are expected to adopt the program.

The 15 per cent discount applied to both labor and parts required to repair a GW-warranted car, except for damage caused by an accident, which in most cases is covered by the purchaser's insurance policy.

There are now more than 2,000 dealers in the Guaranteed Warranty program in the states presently enrolled in the plan.

The concept with the lowest replacement cost, such as tires, batteries, exhaust systems, brakes, windshield wipers and lights.
The Guaranteed Warranty Program is designed by President Fowler to give an incentive for used car buying, but at the same time we want to contribute to traffic safety in Mississippi by encouraging drivers to keep their cars in safe condition at all times.
A purchaser of a Guaranteed Warranty used car will receive a wallet-size warranty certificate and a listing of all dealers who are members of the program throughout the state.
If the car needs repairs during one year after purchase, the purchaser will receive the 15 percent discount in the service department of any dealers who are members of the Guaranteed Warranty program, whether or not the car was purchased there.
After the customer has received itemized bill for all parts and repairs on his car, he then presents his GW warranty card and is given a straight 15 per cent discount off the full amount of the bill.
There are now more than 2,000 dealers in the Guaranteed Warranty program in the states presently enrolled in the plan.

DECLARATION

"Summertime and the livin' is easy" is a lyric from Gerhart's Porgy and Bess that makes a lot of sense. The living can be really easy when a modern gas refrigerator is used to help prepare hot weather dining.

In the new RCA Whirlpool shown here, many foods can be quickly chilled on the new Jet Cold Shelf, or kept frozen in the convenient zero-degree freezer compartment. The magic ice maker automatically manufactures a ready supply of ice cubes to garnish platters and for ice cold drinks.

The refrigerator can be put to excellent use with this delectable hot-weather dessert, preparing it ahead of time, then refrigerating it until ready to serve. The recipe was created by Elsie Masterton, author of the best-selling Blueberry Hill Cookbook. Mrs. Masterton is equally well known for her fabulous meals at Blueberry Hill Farm in Brandon, Vermont, where guests come from all over the U.S.

STRAWBERRY MOUSSE
Prepare this in the cool of the evening for the next day. It's easier to do than it sounds; beautiful to see, too. It will keep its shape for hours if set on the table over a plate of ice. As for the taste—it's divine, that's all. Serves 8.

Slice 1 qt. fresh strawberries (save 8 or 10 choice ones for decorating later) into a 2 qt. bowl with 1½ cups superfine sugar. If you can't get fresh berries, use 2-10 oz. boxes of frozen and omit the

Declares Homebuilding Period By Proposed Savings And Loan Tax Change

Home building and home buying in Mississippi will be handicapped severely if Treasury proposals to change the tax law of savings and loan institutions are adopted, Shouphie Habeeb, President of the Mississippi Savings and Loan League, said recently.

Mr. Habeeb said the House Ways and Means Committee hearings will be held August 9 and 10 on the tax change proposals and that at the time the Committee will consider a Treasury report favoring a reduction of the savings and loan tax-free reserve from 12 per cent to 2 per cent.

Mr. Habeeb warned that if the "basic Treasury philosophy is accepted by Congress, the amount of mortgage money available for home financing" as a result, he predicted, the mortgage market will "tighten up," fewer funds will be available to home buyers and builders, and mortgage interest rates will rise.

The savings and loan official pointed out that nationally, according to estimates of the United States Savings and Loan League, the tax change will cut back availability of home mortgage financing by \$5 billion to \$6 billion a year, or about 40 per cent of the current savings and loan lending volume.

"With savings and loan associations the single largest source of home credit, the removal of such sizeable amounts of mortgage funds from the market would have sharply adverse effect on home buying," said Mr. Habeeb.

Mr. Habeeb said the basic conclusion of the Treasury report is that the bad debt reserve allowance now permitted savings and loan associations be reduced from

12 to about 3 per cent on the basis of a complicated formula and with a "transition" from the present law to the proposed new law to take place over a three to five-year period.

He noted that the Treasury report included the "transition period" suggestion because of concern over the adverse effect the new law will have on the housing market. "However," a transition period merely postpones the paralyzing impact, it does not avoid it," he added.

He charged that at the very time the Kennedy Administration is asking for acceleration of home building to aid economic recovery, the Treasury proposals would cripple savings and loan associations that provide more than 42 per cent of the mortgage financing for the nation.

Mr. Habeeb said that if the tax change is made, dividends paid by the savings associations would be cut, less savings would be attracted, and the ability to provide mortgage funds reduced.

"Enactment of this proposal thus will be a body blow at the promotion of savings, at home financing, and at home construction and buying," he added.

Seasonal Flowers And Vegetables

Most flowers and vegetables are seasonal. They should be planted at a certain time so that their growing period will coincide with the season best suited to their full development. Cabbages and annual poppies, for example, should be planted in the fall so they can mature before the intense heat of summer arrives.

Mrs. E. C. Luxich and sons Darle and Dale of New Orleans were guests last week of Mr. and Mrs. Ray Garwood at their home on River Gardens.

Oliver Frierson Named to Farmers Home Administration

Mrs. Oliver Frierson of Rt. 1, Picayune, Hancock County farmer, has been named to the Farmers Home Administration County Committee, according to Max H. Stone, the Agency's County Supervisor here. The appointment is for three years beginning July 1.

The purpose of the County Committee is to review applications for FHA loans. Composed of three members, the Committee is set up on a rotation basis with one new member appointed each year. Mr. Frierson succeeds Horatio Harrel, Rt. 2, Perkinston, who has served on the Committee the past three years. Other Committee members are Willie Ladner, Rt. 2, Perkinston and Leo C. Ladner, Star Route, Bay St. Louis, Miss.

Mr. Frierson owns 80 acre grain livestock farm near Santa Rosa which he has operated for the past 10 years. He is active in agricultural and community affairs and is a navy veteran. His family includes his wife and 3 children.

Miss Mildred Parker Attending Encampment In New Mexico

Miss Mildred Parker, daughter of Mr. and Mrs. Leo Parker, is attending a special encampment in Glorieta, New Mexico. The Young Woman's Auxiliary organization is a unit of the Baptist Woman's Missionary Union, who co-sponsored the trip. A group from Mississippi made the New Mexico trip by chartered bus. Miss Parker was the only representative from the Gulf Coast according to earliest available reports.

Although plans are incomplete at this time, Dr. Atkinson reported that he desires that Mildred will present a few highlights of the week to the entire congregation Sunday morning. This will be especially appropriate as Youth Week Sunday is being observed in the local First Baptist Church with young people reading the services.

Attending Conservation School

Richard Schaefer, 4-H Club member from Bay High; Eboner Ferguson of North Central School; and Jimmie Smith and Bob Grayson, Future Farmers of America members from North Central, are attending Boy's Conservation School at Roosevelt State Park this week. They will return Friday.
